## Goalkeeper Gloves Size Guide

Your gloves should fit slightly large, allowing for about 1/4" to 1/2" extension past your fingertips. This extra length can be the difference between making a save or letting a goal in. A glove that is too big can cause you to have less control, so getting the right size is important.

Measure the circumference of your hand, just below the knuckles, excluding your thumb.

Round the measurement up to the next whole number and add 1 (example: 7.5" rounds up to 8+1=9). This is your ideal glove size.

Hand Circumference	Glove Size
3-4"	5
4-5"	6
5-6"	7
6-7"	8
7-8"	9
8-9"	10
9-10"	11
10-11"	12

Don't feel like measuring your hand? These basic guidelines can tell you your approximate size.
